Terms & Conditions:

*The customization payment milestones are split into four parts. When you pay the 1st milestone, we begin the project. Before every payment milestone, we will showcase the progress on the demo server. After the final milestone payment, we deliver the customization files to you.

*Payment of the full amount or final milestone is required before the delivery of the customization.

*Upon the delivery of the customization, you will receive a complimentary 30-days support period for any assistance or queries related to the customized features.

* For API-based integrations, you need to provide us with APIs, secret keys, etc. We will not use any test keys.

*During the ongoing customization project, no new features or requirements can be added. Any additional features can be considered after concluding the current contract, and new quotations will be provided for any new changes.

*After customization, updating the version of our Codecanyon product is not the responsibility of Creativeitem.

* When updating our Codecanyon Product to a newer version, there is a possibility that customization files may be overwritten or erased. It is advised to always back up your customization files before proceeding with the update.
